

Saturday

Dear Sister:

We went to P.C. yesterday  
I had some work for the Red Cross  
got 14 lbs of sugar and carrying the  
radio back. it never would pick up  
any station except P.C. it is my  
opinion that they want to sell us a  
new one is why they didn't fix it.  
but if they won't fix it please get it  
and I will make out with it. get  
your money back, it is in a  
worse fix than when they took it  
over for I could get lots of stations  
at night, but it would not play much  
in the day time. I have been trying  
to make a dress got it shorter than  
I like so I guess I will have to be  
in style whether I want to or not. I  
am not feeling very well these days  
but keep trying.

I sat and was counting your  
blessings this morning as I put on  
my clothes, they are many and  
thanks for them all Love to you and  
it is just light enough to see but I must go now  
Nettie.
